### Construction Materials for Agri Builds

#### **Agrimix Concrete**

Keohane Agrimix concrete is designed specifically for use in farmyards, farm roadways, milking parlours, livestock buildings, silage pits and silage effluent tanks.

Keohane Readymix is an IS EN 206 accredited company and our Agrimix concrete is fully compliant with the Dept of Agriculture, Food and Marine S.100-2015 Specifications - a must for all materials used in grant aided farm buildings from 2008, under the Farm Improvement Scheme and the Farm Waste Management Scheme.

#### **Concrete Blocks**

Select from our extensive range of solid and hollow Concrete Blocks from the highest quality aggregates produced in our own quarries.

All Keohane blocks are manufactured to the highest standards and undergo strict quality assurance testing at our onsite laboratory, to ensure suitability for farm applications.

Blocks are certified to IS EN 771-3:2011 Aggregate Concrete Masonry Units. The aggregates used to manufacture our concrete blocks comply with SR 16 IS EN 12620 (Aggregates for Concrete).

#### **Aggregates Sand & Gravel**

Keohane Readymix provides a wide range of high-quality Aggregate products, all of which are produced from extensive deposits of sand and gravel sourced in our own quarries in West Cork. We supply Arena Sand, 4-6mm Course and Farm Roadway 20mm down, ideal for Equestrian & Agricultural requirements.

## Why Choose Us for Farm Construction?

- A **family business**, operating in the heart of Cork for almost 50 years, Keohane Readymix was initially established to supply high quality construction materials to the agricultural sector in Cork... and we've been doing that ever since.
- Our **extensive experience** ensures we understand farm requirements and the challenges of managing and containing silage, effluent and run-off, the everyday wear & tear on roadways and animal enclosures from heavy livestock and machinery.

## What Our Agri Customers Say

“

*A trusted partner in our business, Keohane's expertise and experience in agricultural builds has been instrumental in driving our farm developments. Their recommendations and advice on our new animal housing project from conception to completion has been invaluable. The quality of their products and workmanship is of the highest standard. I wouldn't hesitate to recommend them for farm construction projects.”*

**Ciaran O'Sullivan, Farmer, Innishannon, Co. Cork.**
